

4. USING THE BRITEX

How to use the Britex machine

1. Remove dome lid and add *Britex De-foamer only* into Tank A. Replace dome lid and close securely.
2. Fill Tank B with clean hot tap water, follow instructions on *Britex Heavy Duty Carpet Cleaner* on amount of cleaner to add to this tank. Every time you refill Tank B with clean water, empty out the dirty water accumulated in Tank A (and repeat step 1).
3.
 - A. Connect the smaller end of the smaller black hose (Solution hose) to the connection underneath the Vac/Pump switch.
 - B. Connect the other end of the Solution hose by pulling back the brass connector on the hose and connecting with the brass connector underneath the Carpet wand trigger.
 - C. Connect one end of the Vacuum hose (larger ribbed hose) to the dome lid (Tank A) and the other end to the Carpet wand tube (above trigger).

4. Plug machine into powerpoint, switch on both buttons (vac & pump) to turn on machine. Use Britex as you would an ordinary vacuum cleaner.
5. **Use the wand to release and extract water onto the carpet.**
Release water by holding down the trigger on carpet wand while moving carpet wand over the carpet. Lightly spray water over carpet once. Once carpet is dampen, release trigger on carpet wand and vacuum as normal. You will see the water being extracted from the carpet and sucked up through the wand. Repeat over stubborn stains.
6. When you have finished cleaning, release unused clean water from Tank B and empty out the dirty water accumulated in Tank A. Please clean machine thoroughly before returning to store.

How to use Britex when your carpet has been flooded

In the scenario that your carpet has been flooded, Britex can help extract the water from your carpet.

There is no need to add any carpet cleaning solution or De-foamer in the case of a flooded carpet. Simply plug in the machine and turn on the 'VAC' switch only and vacuum as normal.

How to use the upholstery cleaner

- Follow step 1
- In step 2, Fill Tank B with clean hot tap water and upholstery cleaner as per instructions on back of the bottle
- In step 3, replace the Carpet wand with the Upholstery tool and connect as per step 3 instructions.
- Follow step 4-6 as you would with the Britex Carpet Cleaner

Live clean, love Britex.
